

## BAHIA MINI PARKS IMPROVEMENTS

**PROJECT:** Bahia Mini Parks Improvements (CIP 15-004)

**DESCRIPTION:** Improvements to two mini parks on Topaz Dr. Improvements include: clearing the existing sites, landscape grading, constructing pathways, playground equipment at one park, wood chips, refurbished lawn and new landscape plantings, benches, pet waste dispensers, bicycle racks, picnic benches, chain link fencing and gates, irrigation and other necessary miscellaneous items for completing all work involved in the renovation of two Bahia Parks.

**LOCATION:** Both parks on Topaz Dr. Park B across from Malobar Dr. and Park C across from Andale Ave.

**BENEFIT:** These two mini parks will be a gathering place for kids, families and individuals. They will be a place to run, jump and play, which supports the City's Healthy Eating Active Living initiative. The renovations will provide a quiet place to enjoy the outdoors and an active place for kids and the community to connect.

**SCHEDULE:** Construction began in October 2016. Originally scheduled to open in late February 2017, heavy rains have delayed work. Once work begins, and pending drier weather conditions, construction will take approximately four to six weeks to complete.

**COST:** \$230,000.
