

# JOSEF HOOG PARK FENCING

**PROJECT:** Josef Hoog Park Fencing

**DESCRIPTION:** Installation of concrete 2-rail fence at the park behind the sidewalk along Marin Oaks Drive. The fence chosen for this project will provide benefit of concrete technology with the traditional look and functionality of wood fencing. The proposed fencing system is made from high density concrete and reinforced with steel and fiber mesh giving it durability. Rails and posts will not distort, decay or splinter, saving cost of maintenance and/or replacement.

**LOCATION:** Josef Hoog Park on Marin Oaks Drive, Novato

**BENEFIT:** Protection from vehicles entering the park.

**SCHEDULE:** Spring 2017

**COST:** \$15,000

**MORE INFO:** Gosia Woodfin, Project Engineer, (415) 899-8997, [gwoodfin@novato.org](mailto:gwoodfin@novato.org)
