SECTION - II

INSTRUCTIONS

Complete only the Elevation Certification unless the structure has been floodproofed at least to the base flood elevation. If floodproofing is used, complete only the Floodproofing Certification. The Elevation Certification may be completed by a registered professional engineer, architect, or surveyor. The Floodproofing Certification may only be completed by a registered professional engineer or architect.

ELEVATION CERTIFICATION

I certify that the structure at the property location described above has the first floor at an elevation of 28.25 feet NGVD (mean sea level). The elevation of the highest adjacent grade is 26.2

Note: Also indicate the elevation of the basement floor, or put N/A for nonapplicable. N/A

*Floodproofed with human intervention means that water will enter the structure when floods up to the base flood level occur, unless measures are taken prior to the flood to prevent entry of water (e.g. bolting metal shields over doors and windows).
