1. INTRODUCTION

This report provides a detailed description of the process used to calculate the Fiscal Year 2018–19 special tax levy for the City of Novato’s Community Facilities District (CFD) No. 1994–1 (Hamilton Field). This is the 24th year in which special taxes will be levied in this CFD. The special taxes are calculated according to the Rate and Method of Apportionment of Special Tax (Tax Formula) as adopted by the City Council in the Resolution forming the CFD in June 1995, as amended April 1997.

CFD Parcels

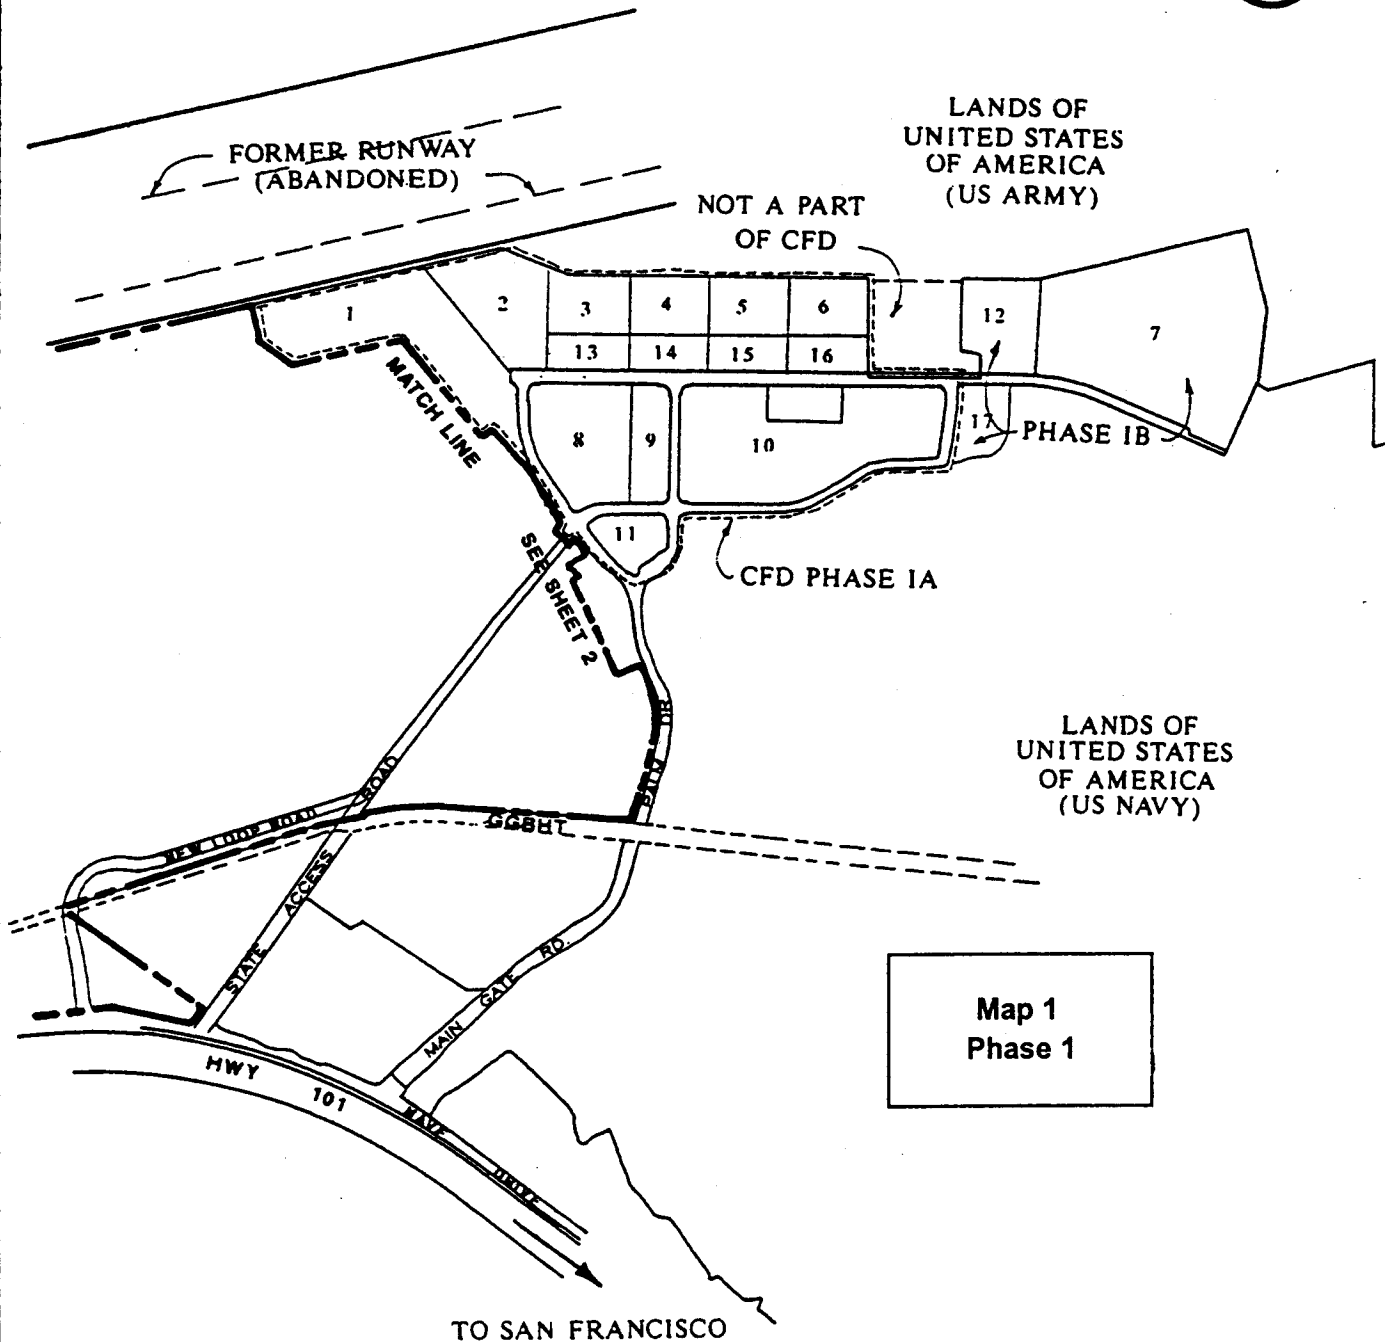

The City of Novato CFD No. 1994–1 originally was formed with 15 parcels, 12 of which were taxable. These 15 parcels together formed Phase 1A of the CFD. The CFD was established to fund a portion of the facilities and services needed to serve Phases 1 and 2 of the Hamilton Field Redevelopment Area. Since the CFD’s inception, Parcel 7 from Phase 1B and Parcels 1, 2, and 3 from Phase 2 have been annexed into the CFD. Parcel 6-20 was annexed into the CFD in Fiscal Year 1998–99. Two more annexations occurred during Fiscal Year 1999–00. They are referred to as Annexations 4 and 5 of the CFD. The parcels annexed to the CFD at that time are Parcels 4 and 5 of Phase 2 of the project. Two parcels were annexed to the CFD in Fiscal Year 2008-09. The parcels are part of Parcel 12 located in Phase 1B of the CFD.

Map 1 shows the original CFD parcels in Phases 1A and 1B of the project. **Map 2** shows the original CFD parcels in Phase 2 of the project. **Table 1A** shows the CFD parcel numbers, Assessor’s Parcel Numbers (APNs), land uses, acres, estimated units, and estimated buildable square feet at two points in time: (1) at the beginning of Fiscal Year 2017–18; and (2) at the beginning of Fiscal Year 2018–19.

Before Fiscal Year 1999–00, CFD Parcels 1, 2, 8, and a portion of Parcel 7 had final subdivision maps approved. During Fiscal Year 1999–00, CFD Parcel 10 and a subsequent portion of CFD Parcel 7 have had final subdivision maps approved. Final maps were recorded for Parcels 4 and 5 of Phase 2 during Fiscal Year 2000–01. A final map for Parcel 12 of Phase 1B was recorded during FY 2009-10. **Table 1B** summarizes the parcels for Fiscal Year 2018–19 and shows each parcel’s status.

Final-Use Parcels and Planned Parcels

The Tax Formula distinguishes between “final-use parcels” and “planned parcels” in the levy of the capital facilities special tax. Final-use parcels include single-family residential parcels with a recorded subdivision map, multifamily condominiums/townhomes with a final map and development plan, and nonresidential parcels with a building permit. **Table 1B** classifies each parcel as a final-use parcel or a planned parcel.

"parcels"

NOTES:

- [1] Parcels 1 & 2 were combined into APN 157-690-21 prior to recordation of subdivision map.
- [2] Although 145 lots were created, only 141 residential lots were created.
APNs 157-761-21, 157-762-20 & 21 were dedicated for landscape and 157-770-12 was dedicated for a storm drainage pump station. All four of these parcels are tax-exempt.
- [3] Only 36 residential lots were created, APN 157-790-37 is owned by the City of Novato.
- [4] Only 35 residential lots were created, APN 157-800-36 is a sanitary district site.
- [5] Some APNs have been renumbered, only 66 residential lots exist.
- [6] FY 1998-99 APNs 157-750-01 thru 56 were remapped. APNs 157-750-49 thru 56 remain the same.
APNs 157-750-01-48 were remapped to APNs 157-751-01 thru 38.
- [7] Parcel was reported as having 0.87 acres in previous years. Assessor's records indicate this parcel is 0.99 acres.
- [8] Parcels annexed in FY 2008-2009.
- [9] APN 157-710-01 split into 157-400-75 and 157-710-76 in FY 2008-2009.
- [10] Parcels are added through Annexation 4 and 5 in FY 1999-00.
- [11] Annexed in 2008. Divided into APNs 158-081-01 through 158-082-08 for FY 2010-11.

"parcel_classification"

[1] APNs 157-761-21, 157-762-20 & 21 were dedicated for landscape and 157-770-12 was dedicated for a storm drainage pump station.

All four of these parcels are tax-exempt.

[2] Some APNs have been renumbered, only 66 residential lots exist.

[3] Only 36 residential lots were created, APN 157-790-37 is owned by the City of Novato.

[4] Only 35 residential lots were created, APN 157-800-36 is a sanitary district site.

Special Tax Levy

The CFD's special tax consists of three separate components:

1. **Capital Facilities Special Tax** (Facilities Tax). This tax pays for the debt service on "released bonds," administration of the CFD, and fire suppression services.
2. **Water Special Tax** (Water Tax). This tax is levied only on nonresidential parcels in Phase 1A to cover water connection charges. Fiscal Year 2004–05 was the last year in which this special tax was collected.
3. **Services Special Tax** (Services Tax). This tax is levied on all taxable parcels for the maintenance and operation of the storm drainage levee system, pump station, and landscaping. The Services Tax was revised through a Resolution of Consideration (ROC) in April 1997.

As detailed in the Tax Formula, the calculation of the special tax levy differs for each of these components. **Table 2** summarizes the amount of special tax to be levied for each tax component and shows the total special tax levy for each parcel. The total Fiscal Year 2018–19 special tax levy for all parcels is \$2,276,495. This consists of \$1,687,507 for the Facilities Tax, \$0 for the Water Tax, and \$588,988 for the Services Tax. The special tax levy on final-use residential parcels is shown as a lump sum. **Appendix A** lists the special tax levy for each individual parcel.

Based on the requirements of the Tax Formula and the costs associated with the three components of the special tax, the maximum Facilities Tax will *not* be levied for each parcel in the CFD for the Fiscal Year 2018–19 tax year. The CFD bonds were refunded for Fiscal Year 2014–15, thereby reducing annual debt service requirement for facilities by approximately \$230,000 annually.

The Services Tax will be levied at 100 percent of maximum. The Water Tax will not be levied in Fiscal Year 2018–19. The remainder of this report details the methods used in calculating each of these special tax components.

"levy_sum"

2. CALCULATION OF FISCAL YEAR 2018–19 SPECIAL TAX LEVY

Facilities Tax

As detailed in the Tax Formula, calculation of the Facilities Tax for each parcel consists of (1) calculating the maximum Facilities Tax for each parcel; (2) calculating the annual facilities cost; and (3) calculating the Facilities Tax levy for each parcel based on a comparison of the maximum Facilities Tax and total annual facilities cost. The following sections detail each calculation.

Maximum Facilities Tax

Table 3 shows the detailed information used to calculate the maximum Facilities Tax for each parcel and summarizes the results of this calculation. These are the steps used to calculate the maximum Facilities Tax:

1. **Each parcel was classified as either taxable or tax exempt.** The tax-exempt parcels are excluded from the Facilities Tax. The following parcels are identified as tax-exempt:

CFD Parcel	APN	Description
Parcels 1 and 2	157-761-21	Landscaping
Parcels 1 and 2	157-762-20 and 21	Landscaping
Parcels 1 and 2	157-770-12	Storm Drainage Pump Station
Parcel 7	157-734-07	Landscaping
Parcel 8	157-740-67 157-740-68	Landscaping Landscaping
Parcel 9	157-690-19	Affordable Housing
Parcel 10	157-790-37	City Owned
Parcel 10	157-800-36	Sanitary District Site

"facility_tax"

Notes:

- [1] From **Attachment 2** of the Tax Formula.
- [2] When the CFD was formed, 150 units were estimated for these parcels. In May 1998 the subdivision map was recorded with 141 residential lots. Based on the CFD's Tax Formula, a parcel maintains at least its total maximum special tax even if fewer units are obtained. Special Tax derived from **Attachment 3** of the Tax Formula using \$1,990 per unit times 150 estimated units divided by 141 units in the recorded subdivision map.
- [3] At the time of annexation, September 1996, 170 units were estimated for this parcel. In April 1997 the revised tentative map was approved for 152 units. Based on the CFD's Rate and Method, a parcel maintains at least its total maximum special tax even if fewer units are obtained. Tax derived from **Attachment 3** of the Tax Formula using \$2,450 per unit times 170 estimated units divided by 152 units in the revised tentative map.
- [4] From **Attachment 3** of the Tax Formula.

2. **Each taxable parcel was classified as an original, successor, or annexation parcel.** The parcels for which tentative or final subdivision maps have been recorded are “successor parcels.” CFD parcels that were not part of the CFD at its formation but were annexed are classified as “annexation parcels.” All other parcels are “original parcels.” **Table 1B** shows the classification of parcels as original, successor, or annexation.
3. **Each taxable parcel was classified as a final-use parcel or a planned parcel.** Final-use parcels refer to single-family residential parcels with a recorded subdivision map, multifamily residential development and condominiums with a final parcel map and a planned development approval, and nonresidential development with a building permit. **Table 1B** shows the classification of parcels as either final-use or planned.
4. **Each original parcel was assigned its maximum Facilities Tax from Attachment 2 of the Tax Formula.** **Table 3** shows this maximum tax for each parcel, as well as the resulting tax per unit or buildable square foot.
5. **The maximum Facilities Tax for each successor parcel and annexation parcel was calculated by multiplying the maximum Facilities Tax per unit or buildable square foot, from Attachment 3 of the Tax Formula, by the number of estimated units or buildable square feet.** **Table 3** shows the information needed to calculate the maximum Facilities Tax for each successor and annexation parcel.

The Tax Formula stipulates that a parcel must maintain, at a minimum, its originally assigned maximum special tax even if fewer units or building square feet are obtained. CFD Parcel 7’s revised tentative map contains 152 units rather than 170 as previously estimated. The \$2,740 Facilities Tax per unit reflects the original maximum Facilities Tax per unit of \$2,450, as shown in **Attachment 3**, multiplied by the 170 estimated units and divided by 152 actual units.

The recorded subdivision map for CFD Parcels 1 and 2 contains 141 units rather than 150 as previously estimated. The \$2,117 Facilities Tax per unit reflects the original maximum Facilities Tax per unit of \$1,990, as shown in **Attachment 3**, multiplied by the 150 estimated units and divided by the 141 actual units.

6. **The maximum Facilities Taxes are summed for all parcels to arrive at a total maximum Facilities Tax of \$2,492,249.**

Determination of Annual Facilities Costs

Table 4 shows the calculation of the Facilities Tax annual cost. These are the steps to calculate this cost:

1. **All components of the annual cost except the fire service component are estimated and summed.** These are the components: (1) bond debt service; (2) administrative expenses; (3) bond reserve replenishment costs; (4) pay-as-you-go expenditures; (5) any amounts needed to cure actual or estimated delinquencies in special taxes for the current or

Table 4
Hamilton Field CFD No. 1994-1
Facilities Annual Cost for Fiscal Year 2018-19

Description	Cost
Released Bonds	
Debt Service	
March 1, 2019 Interest	\$125,037
March 1, 2019 Principal	\$577,875
September 1, 2019 Interest	\$118,825
September 1, 2019 Principal	\$584,087
Subtotal	\$1,405,823
Other Expenses	
Administrative Expenses [1]	\$50,000
County Collection Charges [2]	\$1,684
Bond Reserve Replenishment [3]	\$0
Pay-as-you-go Expenditures	\$230,000
Special Tax Payment Delinquencies [4]	\$0
Less: Excess Special Tax Fund Distribution [5]	\$0
Less: Earnings on Bond Reserve Fund [6]	\$0
Subtotal	\$281,684
SUBTOTAL	\$1,687,507
Eligible Fire Service Costs [7]	\$0
TOTAL	\$1,687,507

"facilities_cost"

- [1] City of Novato FY 2018-19 total annual administration.
- [2] Marin County charges \$2.00 per parcels for the collection of the special tax levy.
- [3] Bond reserves have not been used.
- [4] The City is on the "Teeter Plan;" therefore, the CFD will not experience delinquencies for FY 2017-18.
- [5] The City receives any excess special tax funds following the September 1 debt service payment. Following the 9/1/16 debt service payment and payment of FY 2018-19 fire services costs and administration, \$0 is available to offset FY 2017-18 annual cost.
- [6] Earnings of the Bond Reserve Fund go to the Acquisition Account until that account is closed; thereafter, these earnings will be used to offset debt service. Taken from monthly trustee statements.
- [7] Minimum of:
 - (a) total maximum facilities tax (see **Table 3**) less debt service and other costs; or

previous fiscal year; and (6) less excess special tax fund distributions and earnings on the bond reserve fund. The total of these cost components, less offsetting revenues, is \$1,687,507 (see **Table 4**).

2. **The eligible fire service cost is the minimum of the following calculations:**

The total maximum Facilities Tax less the facilities costs from Step 1: \$2,492,249 less \$1,687,507 equals **\$804,742**.

\$147,740 less the estimated \$618,119 property tax increment that will accrue to the fire district from Phase 1 CFD parcels in Fiscal Year 2017–18. The result of this calculation is **(\$470,379)** for Fiscal Year 2017–18. The calculation of the property tax increment that accrues to the fire district is detailed in **Tables 5** and **6**. **Table 5** shows the calculation of the property tax on the CFD parcels, the amount of property tax that accrues to the fire district, and the remaining fire service cost that may be eligible for payment from the special Facilities Tax. **Table 6** shows the CFD parcels' assessed values that are used to calculate the property taxes shown in **Table 5**.

The second calculation is the lower-cost amount. Because the result is less than \$0, the eligible fire service costs will be \$0 for Fiscal Year 2018–19.

3. **The eligible fire service cost calculated in the previous step was added to the costs from Step 1 to arrive at a total annual Facilities Tax cost of \$1,687,507.**

Facilities Tax Levy

Table 7 shows the calculation of the Facilities Tax levy for each parcel. Because the CFD parcels contain both final-use parcels and planned parcels, the Fiscal Year 2018–19 special tax calculation begins with the steps prescribed for final-use parcels. The calculation of the Facilities Tax levy for each of the parcels is described below:

1. **Multiply the maximum Facilities Tax for each final-use parcel by 91 percent.** The sum of this calculation is \$2,241,010.
2. **Compare the facilities annual cost with the amount calculated in the previous step.** The \$1,687,507 annual facilities cost is less than the amount calculated under step 1 (\$553,503); therefore, the Facilities Tax is reduced proportionately for all final-use parcels until annual facilities costs equals the sum of the Facilities Tax on final-use parcels. This is equal to 68.524 percent of the maximum Facilities Tax for final-use parcels. This is the percentage of maximum Facilities Tax that will be levied on final-use parcels for Fiscal Year 2018–19.
3. **Calculate remaining annual cost to be levied against planned parcels.** There is no remaining cost to be levied on planned parcels.
4. **Levy Facilities Tax on planned parcels until the total special tax from planned parcels funds the remaining annual costs or the special tax levy is 91 percent of the maximum Facility Tax for planned parcels.** Calculating 0 percent of maximum special tax for planned parcels gives the result \$0, as shown in **Table 7**.

"tax_levy_calc"

[1] See **Table 4**

[2] Tax Formula stipulates that at least 91% of the maximum facility tax is levied on all final-use parcels. The levy on planned parcels is adjusted until it equals the remaining annual costs up to 91%. If the remaining annual costs are less than 91% maximum facility tax for planned parcels, the percentage levy on planned parcels is reduced proportionally until the total facility taxes equal the annual cost. The rate will be 0% of the maximum for Planned Parcels for FY 2018-19.

Water Tax

As detailed in the Tax Formula, the levy of the Water Tax component consists of assigning the maximum Water Tax to each commercial parcel included in Phase 1A. This special tax is to be levied at the maximum amount on subject parcels for 10 years to fulfill the Water Tax obligation. Fiscal Year 2004–05 was the 10th and final year of the Water Tax levy. **Table 8** displays the results of this calculation for each parcel.

Services Tax

The calculation of the Services Tax consists (1) calculating the maximum Services Tax for each parcel; (2) calculating the annual service cost; and (3) calculating the tax levy for each parcel based on a comparison of the total maximum Services Tax and total annual service cost. The following sections detail each of these calculations.

Determining the Maximum Services Tax

Table 9 shows the detailed information used to calculate the maximum Services Tax for each parcel and summarizes the results of these calculations. These are the steps to calculate the maximum Services Tax:

1. **Each parcel is classified as either taxable or tax exempt.** The same parcels identified as tax exempt under the Facilities Tax also are classified as tax exempt and not levied the Services Tax.
2. **Maximum Services Taxes are set on a per-unit or per-net-acre basis, as shown in Table 9A.** **Table 9A** shows the Services Tax rates for Fiscal Year 2018–19. The base year for the Services Tax was Fiscal Year 1996–97. The base year rates have been escalated each year based on the Tax Formula as amended in April 1997. The tax escalation factor is the annual percentage increase in the Engineering News Record Construction Cost Index as of March of the year preceding the year in which taxes are levied. The 3.49-percent escalation factor used for Fiscal Year 2018–19 represents the change in the index between March 2017 and March 2018. Escalated taxes are applied to each residential parcel based on the number of planned units and to each commercial parcel based on net acres.

Table 9A shows the Fiscal Year 2018–19 escalated maximum Services Tax rates. The Phase 2 parcels annexed to the CFD during Fiscal Years 1997–98, 1998–99, and 1999–00 are subject to lower Services Tax rates than Phase 1 parcels because Phase 2 does not contribute to pump station or levee maintenance.

3. **The maximum Services Taxes are summed for all taxable parcels to arrive at the total maximum Services Tax of \$588,988.**

Table 8

"max_taxes"

Notes:

[1] Estimated net acres = Acres * 0.9

[2] Maximum service tax per unit and net acre = maximum service tax for base year (FY 1996-1997) * service tax escalation factor. Maximum service tax per unit and net acre for base year obtained from April 1997 amendment

to Special Tax Formula. Service Tax Escalation Factor = annual percentage increase in the Engineer's News Record Construction Cost Index.

- = 4.0% FY 1996-97
- = 2.0% FY 1997-98
- = 6.1% FY 1998-99
- = 1.8% FY 1999-00
- = 3.6% FY 2000-01
- = 1.2% FY 2001-02
- = 3.5% FY 2002-03
- = 1.9% FY 2003-04
- = 4.4% FY 2004-05
- = 5.6% FY 2005-06
- = 5.2% FY 2006-07
- = 7.8% FY 2007-08
- = 0.5% FY 2008-09
- = 6.6% FY 2009-10
- = 0.0% FY 2010-11 (The change was -0.30%, but the Special Tax Formula states the tax is *increased* by the change, so no change)
- = 4.0% FY 2011-12
- = 2.2% FY 2012-13
- = 0.0% FY 2013-14 (The change was -0.01%, but the Special Tax Formula states the tax is *increased* by the change, so no change)
- = 5.1% FY 2014-15
- = 2.55% FY 2015-16
- = 3.48% FY 2016-17
- = 0.45% FY 2017-18
- = 3.49% FY 2018-19

[3] Maximum service tax per parcel for residential parcels = maximum service tax per unit * estimated units

Maximum service tax per parcel for commercial parcels = maximum service tax per net acre * estimated net acres.

Table 9A
Hamilton Field CFD No. 1994-1
Maximum Services Tax Rates for Fiscal Year 2018-19 [1]

Land Use	Escalated Maximum Services Tax			
	Phase I Parcels		Phase II Parcels	
Single-Family Residential	\$743.39	per unit	\$328.80	per unit
Condominium Residential	\$455.70	per unit	\$228.76	per unit
Non-Residential	\$4,835.54	per net acre	\$1,458.17	per net acre

"service_max"

[1] Maximum Service Tax is increased each year after the Base Year (1996-97) in accordance with the Service Tax escalation factor. The Service Tax escalator is determined by the change in the ENR-CCI from March 2017 to March 2018. For this period, there was a 3.49% increase in the ENR-CCI. The Maximim Service Tax is increased by the change in ENR index.

Services Tax Annual Cost

Table 10 shows the estimated annual cost for authorized services. The cost components include (1) the cost of maintaining and operating the storm drainage levee system and pump station; (2) the cost of landscape and irrigation maintenance to be paid by the CFD; (3) administrative expenses; (4) an accumulation for a 5-year insurance policy; and (5) any amounts needed to cure actual or estimated delinquencies in special taxes for the current or previous fiscal year. The total of these components is \$588,988. The maximum amount of Services Tax that could be levied in Fiscal Year 2018-19 is \$588,988. Any Service Tax revenues levied in Fiscal Year 2017-18 that are not expended on service costs of the CFD will be transferred to the long-term replacement reserve fund.

Calculation of the Services Tax Levy

Table 11 shows the assignment of the Services Tax levy for each parcel. These are the steps required for this calculation:

1. **The maximum Services Tax for each parcel is summed to obtain the total maximum Services Tax of \$588,988.**
2. **The total maximum Services Tax was compared to the total estimated service annual cost of \$588,988.** Total services annual costs exceed the maximum Services Tax. Therefore, the Services Tax levy will be 100 percent of the maximum special tax, or \$588,988 for Fiscal Year 2018–19.

Table 10
Hamilton Field CFD No. 1994-1
Services Annual Cost for Fiscal Year 2018-19

Description	Cost
Pump/Levee and Landscaping Maintenance and Operation	\$512,908
Pump/Levee Replacement Set Aside	\$46,830
Administrative Expenses	\$29,250
Long Term Replacement Expense [1]	\$0
Delinquencies in Special Taxes	\$0
Total Cost FY 2018-2019	\$588,988
Transfer from Reserve Funds [2]	\$0
Net Funds Needed from Special Taxes	\$588,988
Total Revenue Available From Levy	\$588,988
Total Special Tax Revenue Surplus/(Shortfall)	\$0

"annual_cost"

Source: City of Novato

[1] Special tax proceeds must be set aside for long term replacement costs for pumps, levees, and landscaping.

[2] In fiscal years where a major capital replacement project is funded, an amount might need to be transferred from long-term replacement reserves.
