Sycamore Glade Apartment Complex PD 89-006
1721 Novato Blvd. (A.P.No. 140-031-64)(formerly-31)

J.L. job no. 90-3

Dear Dimetri Demushkin:

This is to confirm that I provided horizontal and vertical construction stakes for the building associated with the property addressed above; that our horizontal and vertical staking was used for foundation construction; and that a final as-built survey was performed which verified that the finish floors were constructed in conformance with the approved building plans to the precise elevation as was identified on those approved plans.

I CERTIFY that the above statement is true and correct and that all finish first floor elevations were constructed according to the approved plans.

Sincerely,
J.L. Engineering

J.L. Hallberg(RCE 30465)
